Anas Ahmed Mohammed

Sales Management & Business Development | SaaS & Enterprise Solutions | Digital Product Development

Area Sales Manager in the SaaS sector, specializing in selling enterprise solutions, including ERP, accounting and HR systems, to companies and organizations. Founded the Madinah branch and went on to manage three regions at Smart Life. Co-founder of Yourdis, where I lead product development and operations. I combine commercial experience with a practical understanding of systems and data, and use AI tools to turn business needs into workable technical solutions.

01 Work Experience

2020 – Present — **Smart Life Software (SaaS)**

Area Manager

Worked with the company as a sales collaborator from 2018, then joined officially in 2020.

- Founded the Madinah branch, then managed the Al Khobar and Riyadh regions, and later the Madinah region.
- Independently built the company's first CRM, setting its core rules for client management and sales tracking.
- Manage sales of ERP, accounting and HR systems to companies and organizations.
- Build and train sales teams, develop sales methods, and track team and client performance.
- Open new markets and build long-term client relationships.
- Received sales recognition awards.

2026 – Present — **Yourdis**

Co-founder, Product Development & Operations Lead

A Saudi price-comparison platform for authentic perfumes, available on the App Store and Google Play.

- Lead the product from idea to launch: user needs, requirements and priorities.
- Direct technical development with AI tools, and review, test and refine the output methodically.
- Oversee day-to-day operations as part of the platform team.

2019 – 2020 — **Atallah Al-Mutrafi Group**

Founder, Distribution Business

- Founded a private business distributing shoes to retail stores and outlets.

2017 – 2019 — **Jeddah Delivery Company**

Founder & Operations Supervisor

- Founded Jeddah Delivery Company and supervised its operations delivering orders for home-based businesses.

2014 – 2017 — **Al Jouna Sweets**

Pastry Chef

2011 – 2013 — **Al Shathliya Dates**

Founder, Partner & Production Manager

2008 – 2010 — **Tala Al Joud Dates & Sweets**

Pastry Chef

02 Areas of Expertise

Leadership & Team Building
Forming, leading and motivating teams, and training staff to raise their performance and pass on know-how.

B2B Sales
Managing the full sales cycle with companies and organizations, from identifying opportunities to closing deals and building long-term relationships.

Planning & Strategy
Setting and executing sales and marketing plans, monitoring results and correcting course.

Accounting & ERP Systems
Deep understanding of how accounting and ERP systems work, analyzing what companies need from them, and matching each client with the right solution.

Digital Product Development
Turning user needs into clear requirements, prioritizing development, and measuring its impact on the user experience.

Data Analysis
Analyzing data, metrics and statistical reports, and turning them into practical decisions.

03 Tools & Systems

Data & Analytics

Google Sheets · Excel · Looker Studio · GA4

Using advanced formulas and functions in Google Sheets and Excel, preparing reports, and building analytics dashboards that turn data into live KPIs.

Automation & Data Integration

Google Apps Script · Web Scraping · API Integration

Automating processes and building custom functions in the Google environment, collecting web data and organizing it into databases, and connecting systems via APIs to sync and exchange data.

AI-Assisted Development

Claude · Codex · GitHub

Leading the development of complete digital systems: studying requirements, designing the solution and choosing the right technologies, then building with real code, testing and documenting. These include the Yourdis website, a product-image processing system, a daily-notes system, and a perfume data hub.

Product & Prototyping

Figma · Glide

Designing app and website interfaces and interactive prototypes, and building operational apps with their workflows and reports.

Design & Productivity

Photoshop · Illustrator · Word · Google Slides

Promotional designs, print materials and business cards, plus professional documents and presentations.

04 Personal Skills

- Flexibility and adapting to different work environments
- Communication and negotiation
- Problem solving and analytical thinking
- Organization and task management
- Accuracy and attention to detail

05 Training

100+ training courses during my time at Smart Life, in management, sales, business development and systems.
